

**Amendment to the Specification:**

On page 7, lines 1-2, please amend the specification as follows:

The caddy can interface[[s]] with control panel listed above.

On page 8, lines 6-8, please amend the specification as follows:

The control panel [[10]] 36 and the tubing 18, allow the tank 10 to be set up anywhere in the building, as the pumping of the oil can be controlled remotely.
